CREATIVE NOTES

CREATIVE DIRECTOR FIONA CAMPBELL OAM

Welcome to INXS Reimagined.

Tonight is more than a concert, it's a celebration of one of Australia's most iconic bands, whose sound defined a generation and whose legacy continues to resonate across the world.

From the pubs of Perth to the global stage, INXS embodied energy, swagger, and raw musical power. Reimagining their catalogue with a full symphony orchestra has been one of the most exhilarating creative challenges we've ever taken on at Perth Symphony.

The goal? To honour the original spirit of their music while uncovering new emotional depths and cinematic grandeur that only an orchestra can provide.

Tonight, you'll hear the hits you know and love, like Never Tear Us Apart, New Sensation, Don't Change, and Need You Tonight, but with a twist: three powerhouse vocalists, a choir, lush orchestral textures, and moments that will transport you back to the dance floor, the car stereo, or the summer of your youth.

We've added a dash of retro flair too, check out our orchestra's costumes, some original 80's lights, and the unmistakable vibe of the 1980s soundtrack, because this is, after all, a night to let go, sing loud, and dance like no one's watching.

I'd like to thank our incredible arrangers and musicians who've poured their talent into every note, our vocalists who've brought such heart to this night's performance, and of course, you, our audience, for making nights like this possible.

Your enthusiasm and support are what allow us to keep pushing artistic boundaries and reimagining what an orchestra can be.

Enjoy the nostalgia. Soak up the sound...

... And if you feel like dancing, we won't stop you!
